MEMORANDUM FOR THE RECORD

SUBJECT: Classification of ADP Position in IB

During the week of 23 March discussions were held with PMCD regarding the proposed title and grade classification of a GS09 Computer Technician position. Although we are not totally in agreement with the determination, we propose placing the position on the Staffing Complement as is and seeking a re-review after we begin programming our accounting and preparing for the other new computer applications. Meanwhile I have asked the incumbent of the position to identify training courses which will be needed to insure the most timely and effective liaison with the contractor during automation.
